Shot for Revenge.

No amount of coaxing would persuade the wounded man to tell the identity of his assailant. He said he would get even himself. The police are still with him, trying to get from him the name of the assassin.

One night ten years ago Frank Hag gerty, older brother of the wounded man, was in the same vicinity along First avenue with his brother Michael and two other men. A fight was started and in it Frank Haggerty was stabbed to death.

A number of Italians were arrested, and on the testimony given by Michael Haggerty a young Italian named Dominico Prussio, a member of a numerous family and of several Italian secret so-cleties, was convicted and sentenced to Sing Sing for seven years.

The hospital surgeons called for the police, and detectives told Haggerty that he was likely to die, and that he had better make a full statement. He said:

No Backing to This Story. No confirmation can be found for a story to the effect that Senator Sullivan and "Tom" Dunn called upon Mr. Grout at the Murray Hill Hotel to ask him concerning his willingness to accept the Gubernatorial nomination. There is a full crop of candidates for the three Supreme Court Justiceships to be filled at the coming election in New York County. The failure of the Republicans to renominate Judge Gray for the Court of Appeals, because he is a Democrat, gives Tammany all the excuse she asks for being strictly partisan in the matter of the local courts, and three straightout Democrats will be named for the seats on the benchnow filled by Justices Steckler. Hall and Keener.

"Those three Judges were appointed by a Republicans Governor to fill places made vacant by the death of three Democrats. Why should we renominate these Republicans, two of whom have never sat a day on the bench—Hall and Keener." asked Leader Murphy when asked if Tammany would take an Unpartisan attitude regarding the judiclary.

Among the candidates for the nominations are Edward E. McCall, who was a member of the lately abolished Finance Committee of Tammany; Charles H. Knoz. ex-Assemblyman Joseph I.

Chin Sing, a Laundryman, Is Found to Have Disease in Advaniced Stage.

NO LAZZARETTO FOR HIM

He Could Not Be Sent to North Brother Island Because His Is Not a Case of Contagion.

Chin Sing, a laundryman at No. 24 Mott street, is suffering in the advanced stages of leprosy, and therefore he cannot be treated at North Brother Island, where he asked to be sent. He cannot go because that hospital is for contagious diseases, and the doctors have decided that leprosy is not of this class.

Chin Sing went to Dr. Horan, No. 220 West One Hundred and Twenty-seventh with him. His bones ached and his flesh was sloughing away. Dr. Horan diagnosed the case as leprosy and took the character that he went with Dr. Horan and the patient to Bellevue Hospital.

There Chin Sing was isolated in a section of Ward No. 36, and this morning the doctors made an effort to get him transferred to North Brother Island, where it was thought he could be treated best, but he was refused there. He was sent to the Metropolitan Hospital on Blackwell's Island this morning, where his case will be studied by

THE ROOT OF THE MATTER.

He Cured Himself of Serious Stomach Trouble by Getting Down to First Principles.

A man of large affairs in one of our prom nent Eastern cities by too close attention to business, too little exercise and too many lub dinners, finally began to pay nature's tax, levied in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability making it impossible to apply himself to his daily business and finally deranging the kidneys and

"Friends had often advised me to try a well-known proprietary medicine, Stuart's Dyspepsia Tablets, and I had often perused the newspaper advertisements of the rem

The root of the matter is this, the digessia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nerves and whole system receive the nourishment which can only come from food; stimulants and nerve tonics never give food: stimulants and nerve tonics never give leal strength, they give a fictitious strength, invariantly ioliowed by reaction. Every drop of blood, every nerve and tissue is manufactured from our daily food, and if you can inspire its prompt action and complete digestion by the regular use of so good and wholesome a remedy as Stuart's Dyspepsia Tablets, you will have no need of nerve tonics and sanitariums.

Although Stuart's Dyspepsia Tablets have been in the market only a few years, yet probably every druggist in the United States, Canada and Great Britain now sells them and considers them the most popular and successful of any preparation for stomach troubles.
